Program Overview

The Marksman program provides a depth of shooting knowledge and experience for even the most advanced participants. This program includes three days focused on marksmanship fundamentals while providing an environment to push participants beyond their normal comfort zones.

Our three day intensive shooting program includes: high powered rifles (.223 and .308), shotgun (12g trap and sporting clays), pistol (Sig .22 and 9mm), static & long range archery, LaPorte Archery (Sporting Arrows) and 3D target simulation.

Spend three days and two nights on "A" Ridge with the shooting staff and leave with the best training the Boy Scouts of America has to offer.

Finish your week with a ride on the Big Zip, a service project, and two elective activities selected from the Adventure Zone venues (see back).

The Summit encourages participants to grow in competence, confidence and awareness by providing experiences that require participants to move out of their comfort zones and "stretch" themselves. The Summit uses action and adventure sports to help each individual find their personal "stretch" zone.
