NEW RIVER TREK
KAYAK • RAFT • CAMP • FISH

Discover The Grandeur Of One Of The World’s Oldest Rivers In The Heart Of West Virginia’s Appalachian Mountains.

The New River cuts deep into the heart of the Appalachian Mountains. Its long history spans the hunting and foraging of Native Americans, the fur trapping of early frontiersmen, and the raw strength and determination of the coal miners and railroad workers who sought to tame its rugged beauty.

More recently, outdoor enthusiasts have flocked to the New River to enjoy a myriad of outdoor adventures and admire the natural beauty of the New River Gorge. The New River Gorge boasts outstanding whitewater rapids (Class I to V), extensive world-class climbing opportunities, fishing, hiking, mountain biking and more.

But it is more than just an adventure destination; it is an important ecosystem that contains diverse wildlife habitats, continuous forest systems, and diverse plant life. Visitors experience nature up close.

And of course, the New River Gorge is culturally significant as a reminder of our national Coal Heritage. At one time, the Gorge was dotted with small coal camps and towns. Visit their remnants today and come to understand the strength and character of the men and women whose hard work and determination helped shape our country.

We invite you to come enjoy a river voyage through the historically, culturally, ecologically significant New River Gorge. Paddle, camp, fish, and enjoy all that it has to offer to the next generation of rugged individuals willing to match their mettle against one of the world’s rugged natural wonders.

TRIP OVERVIEW
This is a 50-mile paddle trip on the New River. You will navigate the upper portion of the river in inflatable kayaks (one or two-man) called “duckies”. This portion of the river includes Class I to III rapids. The final whitewater day in the Lower Canyon is a rafting experience and includes Class III to V rapids.

Crews camp along the river through the New River Gorge. A gear boat (raft) accompanies the group to transport gear and food.

Please note that in exceptionally high water, the entire trip may be conducted in rafts.
