---

### Safety Equipment and Gear Provided

---

13

The Summit provides all required program and safety equipment such as helmets, pads, PFDs, ear protection, harnesses, etc. Personal helmets are permitted for use after an inspection from staff.

### Close Toed Shoes

---

All The Summit activities require closed toed shoes for participation and your safety.

### Wheeled Sport Activities

---

The ideal shoe for these activities is a biking shoe, skateboard shoe, or low-rise tennis shoe with a thin sole. These types of footwear help reduce potential injury in these activities. Stiff and bulky hiking boots make control more difficult on a skateboard and bike.

### Aquatics

---

Closed toed shoes are required for all aquatic activities. Please bring footwear that will be dedicated to being soaked for the week. For challenging water activities, a brief swim ability check may be required by staff for your safety.

### Recommended Gear

---

You are welcome to bring your own belongings. However, we recommend that you have the following essentials. Keep in mind that summer lows reach temperatures of 60 (lower in May & October) and summer highs around 85. Walking & hiking shoes or boots (closed toe)

- Daypack
- Rain gear
- Jacket for cool nights
- Water bottles
- Hat or cap
- Flashlight
- Long pants
- Sunscreen
- Insect repellent

## HAZARDOUS WEATHER & LIGHTNING

---

### Lightning Advisory

---

16

- Lightning advisories are announced when lightning is detected within **12 miles** of The Summit.
- **All Aquatics and Aerial Sports activities are suspended:** All staff and participants exit the water or descend from their aerial sports activity and move to a safe location.
- **Consol Energy Bridge:** The wingtip walkways are CLOSED. The main wooden walkway is open.

### Lightning Alert

---

- Lightning alerts are announced when lightning is detected within **8 miles** of The Summit.
- **All outdoor activities suspended.** All staff and participants must move to a safe location.
- The entire Consol Energy Bridge is closed under a lightning alert.

Wait until **ALL CLEAR** is announced before resuming activity.

If you are unable to get to appropriate shelter:

- **Avoid** open fields, ridge tops, tall and isolated objects.
- **Spread out** 10 feet between individuals.
- **Don't lie down as** nearby lightning strikes can pass through your body more easily.
- **Crouch low** and on the balls of your feet like a baseball catcher so you are not the tallest object around. At the same time keep your feet close together with your heels touching. This reduces the surface area of your body and the risk of electricity traveling through your vital organs.
- **Cover your ears** to help minimize hearing loss from loud thunder.
- **Beware of hair standing on end or skin tingling** as these can be signs of imminent strikes. Get into the crouching position immediately if you feel them (but be aware that lightning may strike without these warnings).

### Emergency Locations

---

The Mountains of West Virginia have quick own setting weather conditions. We continually monitor the weather and will announce hazardous weather over our camp wide PA system. Please follow staff instructions in case of hazardous weather. If the severity of the storm warrants, the SOC will coordinate movement of all personnel to more secure locations. Transportation services will be utilized in extended periods of severe weather. If an emergency weather alert is announced, please seek appropriate weather shelters.

- Shower houses
- Emergency Procedure Shelters
- Note: Unless directed by staff, the main living area of Luxury Deluxe Tents satisfy weather shelters.

## TOBACCO, ALCOHOL, & ILLEGAL SUBSTANCES

---

The following sections lay out the Boy Scouts of America's policies on Tobacco, Alcohol, and Drugs. These policies are meant to be taken very seriously.

21

Violation of these policies may result in dismissal from camp, membership revocation, and/or legal action.

### Tobacco

---

Use of all tobacco products; including but not limited too E-cigarettes, vaporizers, electronic nicotine delivery systems, chewing tobacco, and anything alike must be done out of sight of all youth participants in designated areas. Communicate with camp staff if you have any questions. Adults should support the attitude that they, as well as youth, are better off without tobacco in any form.

### Alcohol

---

The use of alcoholic beverages and controlled substances is not permitted at encampments or activities on property owned and/or operated by the Boy Scouts of America, or at any activity involving participation of youth members.

Guests that conduct themselves in a disorderly fashion produced by intoxication are subject to eviction, without refund.

### Drugs

---

Illegal drugs, including the misuse of prescription drugs have absolutely no place on property. The misuse of drugs happens in all levels of our society. We may be confronted with the problem at any time; therefore, we need to understand the misuse of drugs and what can be done about the situation. See the Drug Enforcement Administration website ([www.dea.gov/](http://www.dea.gov/)) for detailed information on controlled substances and their effects.

### Medical Marijuana

---

Marijuana possession of any kind is illegal in the State of West Virginia.
